## Report of School Board.

---

Your School Board, in presenting their annual report to the town, can say with pleasure that the work of our teachers has been of a high order, and all have labored faithfully for the best interests of their pupils. In securing teachers, it has been the policy of your Board to hire home talent where it was possible to be done, believing that it was subservient to the best interests of the town.

As a rule, scholars have been prompt in their attendance, and the average has been full as good, if not better, than in previous years. By strict economy we have been able to have 24 weeks of schooling, with an additional 4 weeks in District No. 1, where they have the benefit of the Philbrick fund. It was thought best not to run a school in District No. 10, and the scholars were transported to No. 11. The schools should be consolidated whenever it can be done without too much inconvenience to small pupils.

A special appropriation of \$75 was made for repairs. This was mostly expended for repairs on school-houses in Districts No. 11 and 12. Had a small amount been expended for repairs on these buildings a few years ago, it would have saved quite a bit of the expense for this year. The school-houses, excepting that of No. 13, will need but very little expended on them the coming year. Considerable money needs to be expended on this building to make it suitable for school purposes. It would be cheaper in the end to build a new house.

There are supplies enough on hand for use of schools during the spring term. An appropriation of \$200 was made for exchange of text-books. The Readers were found to be in a bad condition, and the Potter Geography which was being used was out of print. It was thought best to introduce two different series of Readers, as, by changing them from time to time to different schools, it gives the pupils fresh reading matter without any extra cost. After a careful examination, the Cyr Readers, published by Ginn & Co., the Progressive Readers,
